

promise

Factory

about\_us\_module::teamMemberFactory

```
graph BT; A[about_us_module::teamMemberFactory] --> B[promise]; A --> C[Factory];
```

The diagram illustrates a generalization relationship. A box at the bottom, labeled 'about\_us\_module::teamMemberFactory', has two arrows pointing upwards to two boxes at the top. The left box is labeled 'promise' and the right box is labeled 'Factory'. This indicates that 'about\_us\_module::teamMemberFactory' is a specialized version of both 'promise' and 'Factory'.
